WASTE SITE APPROVED DECEMBER 2025

LAND OWNED BY GREEN WASTE COMPANY - POTENTIAL FOR INDUSTRIAL EXPANSION?

THIS JUDICIAL REVIEW ISN'T ABOUT COMPOST. IT'S ABOUT LOCATION.

- ☒ Cornwall Council approved a large-scale industrial green and wood waste processing site in open countryside, valued for farming, heritage and wildlife
- ☒ Between homes. Beside food growing farmland. At the gateway to West Cornwall
- ☒ Upstream of vulnerable watercourses and St Ives Bay. Within buffer zones of 4 SSSIs
- ☒ Despite 138 objections from local people, businesses, charities and Parish Council
